

AIDING THE INTEGRATION OF REFUGEES IN THE EUREGIO MEUSE- RHINE

Practices, Analyses and Perspectives

18 Nov 2019 | 13:30 | University of Liège

Join us!

You are cordially invited to join us as we present the first results of the INTERREG project TREE - Training for integrating Refugees in the Euregio.

What?

The goal of TREE is to contribute to a Euregional standard in refugee integration by creating a training programme for those who work with refugees. The project contributes to the INTERREG aims of strengthening the collective identity of the Euregio Meuse-Rhine. During the research we compared how integration works in four sub-regions of the Euregio Meuse-Rhine – Liège Province, the region of Aachen, parts of the Eifel region - Bitburg/Prüm and Vulkaneifel, and Dutch Limburg. We then interviewed practitioners in order to discover what programmes already existed in the regions and what, from the point of view of practitioners, was missing.

We will share the results of this research and the plan for a training programme that will begin in 2020. This training programme targets people who work with refugees in different contexts.

There will also be live music and an opportunity for networking with other integration stakeholders in the region.

When and Where?

18th of November from 13:30 to 18:00

Salle académique at the University of Liege, place du 20 août 7, 4000 Liège, bâtiment central A1.

How to register?

Follow this link:

https://my.uliege.be/portail/go_xt.do?a=o%7C11004%7Ce%7C378853

Registration Deadline: 12 November 2019

We are looking forward to welcoming you in Liege and to sharing what we have learned. For further information about the INTERREG Project TREE, please visit our website: <https://project-tree.eu/>

Programme

Salle Académique-Université de Liège
Place du 20-août, 7B- 4000 Liège, Belgique
